Webportal Manual

H.ESSERS
LIQUID BULK

Table of content

1.   Contents

2. Introduction

Welcome to the H.Essers Liquid Bulk Web Portal Manual. This manual provides a comprehensive guide to help and guide you through the H.Essers Liquid Bulk Web Portal. This serves as a central hub for hauliers, drivers, customers and users involved in liquid bulk logistics.
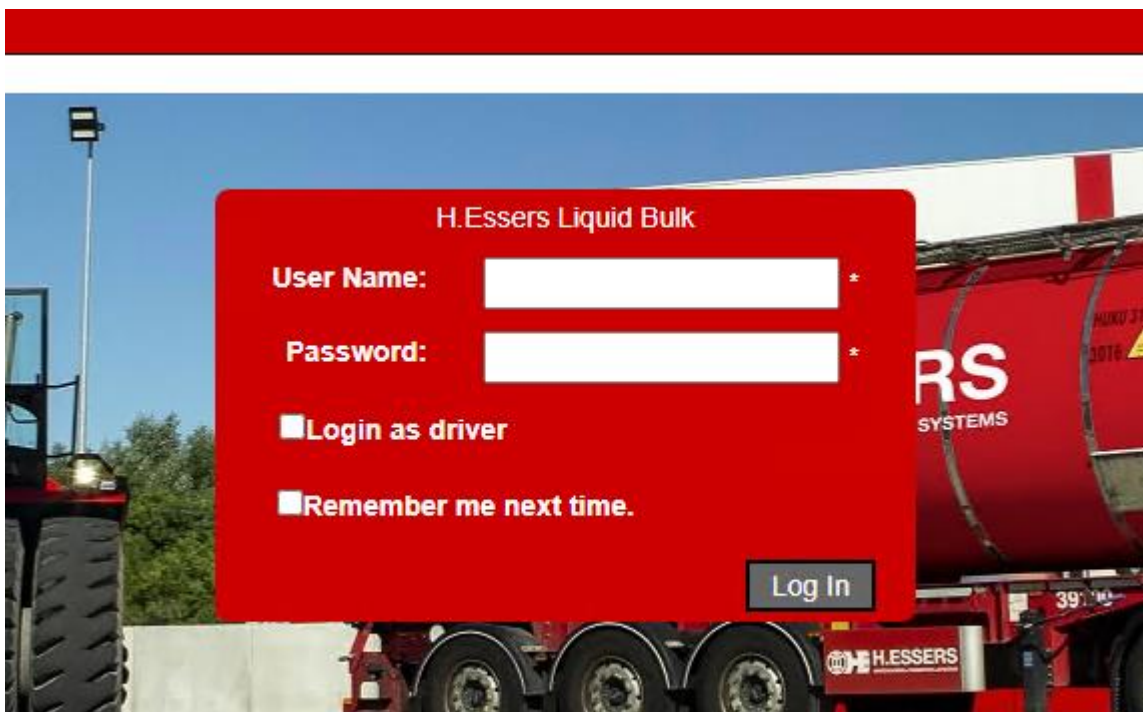

Key Features:

- Real-Time Tracking: Offer a sophisticated tracking system to monitor the location and status of liquid bulk shipments in real time.

- Product Information: Display comprehensive product information, including safety guidelines, compatibility, and handling instructions for various liquid bulk substances.

- Document Management: Enable users to access and manage necessary shipping documents and compliance certificates.

- Safety and Compliance: Highlight safety regulations and compliance standards specific to liquid bulk transportation can be found on our website.

- Collaboration Tools: Integrate tools for seamless communication between clients, carriers, and H.Essers staff.

3. General

3.1 Default page

On the default page you have the option to log in. Use your login code that has been provided to you. In case you are a driver and not a haulier please select the Login as driver option. Once you have successfully logged in you will be redirected to the next page.

Once you are logged in the system you will be redirected to the next page where you will be able to handle certain actions or look up data. More details you can find further in the manual.

Also a redirected to the H.Essers site can be found by pressing the learn more button. Driver documents and the web portal manual can also be found on de default page.
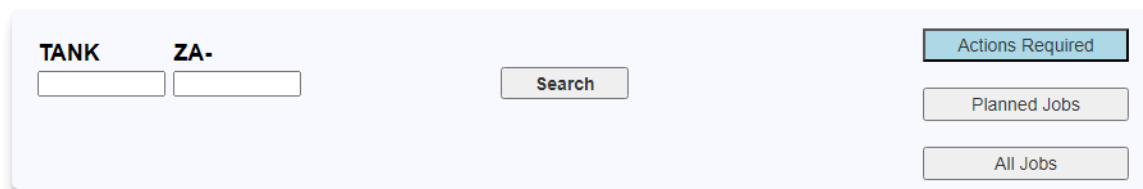

3.2 Haulier page

The haulier page has been adjusted. The new layout should make it easier to work with. You still have the same functionalities like before but they have been joined on 1 screen. You can upload CMR + other files

3.2.1 Searchquery

At the top left side, you can search on ZA or tank number. Here you can filter on order/tank. On the right side you can also find 3 buttons.

- Actions Required
- Planned Jobs
- All Jobs

TANK	ZA-				Actions Required
			Search		Planned Jobs
					All Jobs

Actions Required will show you the jobs that still need CMR or information related to the load or delivery.
Planned Jobs will display a list of jobs that are planned but not executed yet.
All Jobs will show you all the Jobs you did and are planned for you as haulier.

3.2.2 Datagrid

This data grid displays the info about the jobs, it shows the basic data but also has the options to upload CMR documents + redirect you to data input related to a certain job. You can upload the CMr by clicking on the CMR button. In case it's red it means no CMR has been uploaded yet. In case it's green then a CMR already has been attached.

Order	Action	Container	Truck	RC	City	Date	Time	CMR	Data
ZA517288	10	FTLU825430-7	BEVERTRANS01	L	Antwerpen	1/06/2023	9	X	V
ZA521396	10	HUKU379017-6	BEVERTRANS01	L	Gent	7/08/2023	6	X	V
